Welcome Message

Dear friends and colleagues

We are very pleased to invite you to the fifth **London Breast Meeting**, scheduled for the 5th-8th September 2018.

Our 2018 meeting will focus on **Common Problems in Aesthetic and Reconstructive Breast Surgery**, and we are delighted to welcome our prestigious Faculty from all over the world.

This year, we will be hosting a pre-conference **video workshop** the day before the main programme, where a variety of video techniques will be shown throughout the afternoon. Following the success of last year, there will also be a parallel **Nurses Day programme** aimed at breast care nurses and wound care specialists to provide updates and highlights of the complete breast care pathway.

We will be holding our Friday night social function at **Tramp**, one of the most exclusive members clubs in the world, so we hope you can join us for an evening of elegance, food, drink and live music.

If you are unable to attend the London Breast Meeting, you can register for our **live online broadcast** which will ensure that you don't miss a thing! <http://live.londonbreastmeeting.com>

Take a look at our programme, and distinctive faculty, and join us for an enlightening and stimulating forum.

Yours sincerely,

Professor Jian Farhadi
Consultant Plastic & Reconstructive Surgery,
Guy's and St Thomas' Hospital, London

Professor Jaume Masia
Chief of Plastic Surgery Department, Hospital de la
Santa Creu i Sant Paul, Barcelona, Spain

Scientific Programme

Wednesday 5th September 2018

Video Workshop - 14.00 – 18.00:

Session 1

- Nipple sparing mastectomy techniques
- Sentinel node biopsy and axillary clearance techniques
- Axillary clearance: refining the technique
- Tips and tricks in oncoplastic breast surgery

Session 2

- How to assess patients with lymphoedema
- Tips and tricks on how to raise a DIEP flap
- Shaping of the DIEP flap in delayed breast reconstruction
- Shaping the breast using the LD flap with or without implants
- Mastopexy: how to combine with implant or mesh

Thursday 6th September 2018

Breast Oncology

- Highlights from the St Gallen/Vienna International Breast Conference
- The DCIS dilemma: current recommendations and trends
- Can chemotherapy be altered when facing wound healing issues?
- The integrated port-expander: challenges for the radiologist and radio-oncologist
- The diagnosis of capsular contracture
- Thin or thick mastectomy flaps?
- Follow up in BRCA patients post risk reducing surgery

The breast multidisciplinary meeting: challenging cases

Keynote Address

Oncoplastic surgery

- How to assess intraoperative margins
- How to avoid oncoplastic failures in the small breast
- The medial quadrant: tips and tricks
- Thoracic perforator flaps: how to plan
- How to correct oncoplastic failures without conversion to a mastectomy
- Lipofilling: safety and timing in the BCS defect

Special Topic

- Malpractice: how to deal with the phone call from the lawyer

Friday 7th September 2018

Implant-Based Reconstruction

- Do's and don'ts in pre-pectoral breast reconstruction
- Direct to implant reconstruction when you can't afford an ADM
- Contralateral symmetrisation: tips, tricks and timing
- Exchange of the expander to permanent implant
- Fat grafting techniques to permanent implant
- Fat grafting techniques to improve the envelope
- Immediate reconstruction in the previously irradiated breast
- Nipple reconstruction in the thin skin envelope

Keynote Address: How I changed my practice after learning from my mistakes

Free Paper Session: Surgical Pearls in Aesthetic and Reconstructive Surgery

Autologous Reconstruction

- Let's talk about the donor site:
 - Planning the donor sites
 - The abdominal bulge
 - Seroma: how to prevent and treat
- Failed flap: how and when to use the 2nd free flap
- Venous congestion: intra-operative and post-operative options
- Safety of lipofilling the contralateral breast
- Reverse abdominoplasty breast reconstruction

Saturday 8th September 2018

Aesthetic Breast Surgery

- Addressing the sequelae of upper body massive weight loss surgery
- Reverse abdominoplasty
- Breasts and bottoms
- The mesh breast lift
- Breast re-reduction
- The Pathologist's perspective on how to mark the specimen
- The waterfall effect: how to avoid and how to correct

- Implant-related problems in aesthetics:
 - How to correct rotation
 - Choice of implant
 - Capsular contracture

ALCL Updates

Aesthetic Breast Surgery continued

- Cysts post-lipofilling
- Difficult breast deformities
- Treatment of tuberous breast: fat grafting and implant advances
- Correction of congenital deformities and Poland's syndrome
- Body dysmorphism
